Summary

Front-End Developer with **3+ years** of experience in React and modern web development, specializing in creating reusable components, managing state with React Hooks, and integrating APIs. Skilled in responsive design to ensure seamless user experiences across devices. Strong problem-solving abilities and a focus on performance optimization.

Technical Skills

Languages: HTML/CSS, JavaScript

Technologies & Tools: React, Jquery, MySql, SCSS, Figma, AEM, Git

Experience

DEPT (Teknopoint) Apr 2022 – Present

Frontend Developer

- Developed dynamic, component-based user interfaces: Created responsive and scalable React applications, using React Hooks for state and side-effect management.
- Assisted in developing web applications: Contributed to building and maintaining responsive, high-performance web applications using React.js.
- Participated in code reviews: Contributed to team code reviews, improving overall code quality and maintaining best practices.
- Developed and implemented new website components using Adobe Experience Manager(AEM) for enhanced user experience.

Education

Mumbai University Sep. 2018 – May 2021

Bachelor of Science in Computer Science Mumbai, Maharashtra

Projects

IDFC First Academy Web Application | *Mar 2024- Present*

- Project Overview: Developed and maintained a large-scale web application for IDFC First Academy, aimed at enhancing user experience and functionality for educational content delivery.
- Role and Responsibilities: Built reusable React components to standardize UI elements across the platform, streamlining the development process and ensuring consistency. Collaborated with a cross-functional team, including backend developers and UI/UX designers, to deliver a cohesive and user-friendly experience.
- Technologies Used: React.js, JavaScript (ES6+), CSS3, HTML5, Axios, react-hook-form, Git.

IDFC First Bank (Website) | Aug 2022-Feb 2024

- Collaborated with the development team to identify and resolve front-end bugs in HTML, CSS and javascript for the IDFC first bank website.
- Developed and implemented new website components using Adobe Experience Manager (AEM) for enhanced user experience.
- Worked closely with designers and stakeholders to translate design mockups into pixel-perfect HTML and CSS.
- Ensured cross-browser and cross-device compatibility for seamless user experience.
